

# LACOBEL® T Spandrel Glass Color Harmonizing Guide

Lacobel T back-painted spandrel glass beautifully harmonizes with a wide variety of AGC vision glass and low-e performance coatings used in popular insulated glass unit (IGU) configurations. This chart provides you with an easy reference for identifying Lacobel T spandrel glass colors that visually harmonize with a particular AGC IGU configuration. Of course, the Lacobel T colors shown are only recommendations. Any Lacobel T color may be used according to your unique vision.
