LUXCLEAR® Protect
ANTI-CORROSION GLASS

LIVE THE CLEAR LIFE.
Glass requires care to maintain its shine, transparency, and attractiveness. Exposure to water, heat, and high humidity can “age” these surfaces, making them look less than pristine. Your glass looks dull or dirty, and the longer it is exposed to these elements, the older it will appear.

**LUXCLEAR Protect**, a coated glass product, is ideal for shower and bath enclosures, and in spaces including saunas, pool enclosures, and sunrooms.

> Prevents unsightly signs of age
> Protects against damage from water, heat, and high humidity
> Seamlessly fused to the glass
> Crystal-clear appearance
> Keeps that brand-new shine with proper care
> Limited Lifetime Warranty available

**Cleaning and care**

LUXCLEAR Protect requires no special cleaning solutions or processes. Just clean as you would any other glass surface.

> It is important to note that anti-corrosion glass is not self-cleaning or scratch resistant.
> Optimum results can be achieved with regular cleaning using traditional non-abrasive household cleaners including: Clorox®, Greenworks®, Fantastik®, Lysol®, Mr. Clean®, Magic Eraser®, Soft Scrub®, Sprayway®, Ammonia Free Glass Cleaner, Tilex®, Vinegar, or Windex®.
> Always use a soft cloth, paper towel, or sponge to clean surfaces. DO NOT USE Brillo® pads, steel wool, or other abrasive pads or brushes.
> NEVER USE with Comet®, Ajax®, or other abrasive cleaners.
> NEVER USE razor blades, or other sharp tools to clean glass.

**Corrosion resistance testing**

Our experts tested LUXCLEAR Protect at high temperatures and high humidity (50°C + 95% Relative Humidity + 1,900 hours) which simulated exposure equivalent to regular use of a shower enclosure over a time period of more than 20 years. LUXCLEAR Protect showed no signs of corrosion.

LUXCLEAR Protect is available with a Limited Lifetime Warranty. Our world-class customer service team is eager to assist with your needs.

Visit www.luxclearprotect.com to register your Limited Lifetime Warranty and for warranty terms and conditions.
