

# LACOBEL T<sup>®</sup> MATELAC T<sup>™</sup>

Temperable back-painted glass  
in gloss or satin finish

AGC LACOBEL T and MATELAC T provide architects and designers an exciting selection of temperable decorative glass products for endless imaginative applications – interior and exterior. The back surface of both products features a durable, factory-applied industrial paint in one of 10 long-trending colors. LACOBEL T’s front surface retains the natural high gloss of glass, whereas the acid-etched front surface of MATELAC T provides a soft satin finish.

AGC Glass North America, the world’s largest glass manufacturer, is committed to providing the widest range of products with world-class customer service. For easy, convenient, and fast access, LACOBEL T and MATELAC T are available in AGC regional distribution centers.

### Frequent Uses

Inspired Applications – Inside and Out

- |                |           |               |                 |
|----------------|-----------|---------------|-----------------|
| Wall coverings | Doors     | Table tops    | Facade cladding |
| Dividers       | Furniture | Back splashes | Spandrel glass  |

What’s so special about them?

What this means for you?

#### Factory back-painted

- Provides ultimate uniformity and consistency
- Eliminates the hassle of manual painting before or after tempering
- Can be immediately cut and tempered

#### High-quality industrial paint

- Highly durable and suitable for exterior applications
- Highest quality for up-close interior applications
- Choice of 10 long-trending colors
- UV-resistance prevents discoloration
- Moisture resistance allows usage in humid areas (bathrooms, kitchens, etc.)

#### Temperable

- Strong and safe, withstands thermal shock
- High resistance to impact and scratches
- Provides more flexibility for fabricators to manage production and inventory, resulting in faster response to market needs

#### Environmentally friendly

- Low Volatile Organic Compounds (VOCs)
- Cradle to Cradle Certified™ Bronze
