Stopray Vision 36T and 50T are double silver low-emissivity coated glass products designed for energy efficient commercial buildings in climate regions that demand high performance in solar control and thermal insulation. Stopray Vision 36T and 50T are part of the AGC global product portfolio manufactured in the U.S. — broadening our range of high-performing glass and aesthetic options.

**Stopray Vision 36T**

- Surface 2 Neutral
- Visible (VLT) 35
- Solar UV 17
- Out 11
- In Solar 30
- Air 33
- Argon 42
- U-Value (Imperial) 0.29
- Shading Coefficient 0.24
- Solar Heat Gain Coefficient (SHGC) 0.24
- Light to Solar Gain (LSG) 0.21
- DW Index 1.66

**Stopray Vision 50T**

- Surface 2 Neutral
- Visible (VLT) 49
- Solar UV 25
- Out 12
- In Solar 30
- Air 22
- Argon 38
- U-Value (Imperial) 0.29
- Shading Coefficient 0.24
- Solar Heat Gain Coefficient (SHGC) 0.34
- Light to Solar Gain (LSG) 0.30
- DW Index 1.65

**Processing options**

- Heat-Treating: Yes
- Bending: Yes*
- Lamination: Yes*
- Ceramic frit: No

**Performance**

- Reduces solar heat gain
- Meets energy code requirements for warmer climate regions
- Provides greater indoor comfort and energy savings
- Allows additional options for performance and aesthetics for all climate regions, including more cooling dominate southern regions
- Stopray Vision 36T has a neutral blue aesthetic and crisp reflectance 30%
- Stopray Vision 50T has a very neutral blue-grey aesthetic and soft reflectance 20%
- These make excellent companion products due to soft grey color in transmission
- Neutral aesthetics
- Easy to process for a variety of applications
- Worry-free transportation, handling, stacking, and storing
- Supplied with protective film on coated side of glass
- Tempering required to achieve final performance and aesthetics
- Use on surface 2 in double or triple insulating glass units

**Insulating glazing unit:** Based on 1” (25 mm) Unit: 1/4” (6 mm) | 1/2” (13 mm) spacer | 1/4” (6 mm)

**Build your own IGU**

With the AGC online Glass Calculator you can quickly and easily build your own AGC IGU and calculate its performance data. Visit www.agcglass.com Tools & Resources.

**Envision Stopray Vision 36T & 50T**

With the AGC Architectural Glass Visualizer you can see how Stopray Vision looks on a variety of buildings and under various conditions. Visit www.agcglass.com Tools & Resources.

**Let AGC help build your spec**

As the world's largest glass manufacturer, AGC offers the widest range of products. No matter what brand or type of glass you typically specify, there is an AGC product that will perform equally or better. If you have glass specifications that you would like re-written to reflect AGC products, contact a knowledgeable and helpful AGC architectural representative today.

**Availability**

As part of AGC's commitment to providing world-class customer service, AGC distribution centers, strategically located throughout North America, provide you with easy, convenient, and fast access to the most popular AGC products. Contact AGC for product samples or for a distribution center near you.
